

Redesign the Misleading Colored Chart

R.No: 8 Reg. No: 192325043 Name: Bandaru Jahnavi

Each chart below uses color in a misleading or confusing way. For each one, answer the three questions in your own words.

Chart 1

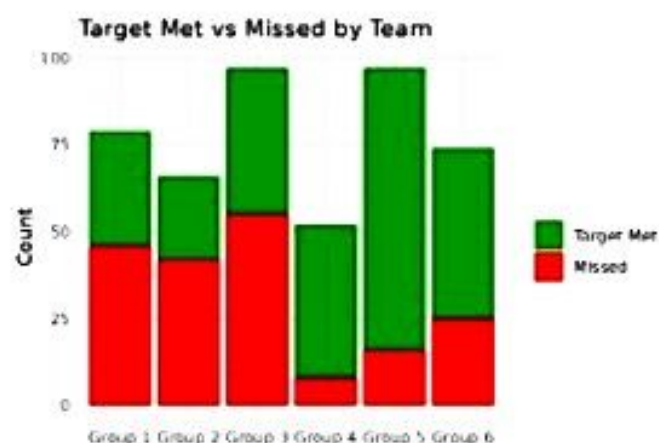

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

Chart 2

1. What is this chart trying to show?

2. What's wrong with the color choice?

3. Propose a better color scheme (describe it in words):

03-10-26 Redesign the Misleading colored chart.

Chart 1

1. What is this chart trying to show?

It shows how much revenue was earned in each month from January to August.

2. What's ~~also~~ wrong with the color choice?

The chart uses too many different colors, which can be so confusing. It may also make it look like each month is a different category.

3. propose a better color scheme:

I would use the same color for all the months, or use different shades of one color. This would make the chart easier to understand and compare.

Chart 2

1. What is this chart trying to show?

It shows how many targets each team met & how many they missed.

2. What's wrong with the color choice?

The red and green colors may be difficult for some people to tell apart, especially people with color vision problems.

3. propose a better color scheme:

I would use blue for targets met & orange for target missed, because they are easier to tell apart.
